

1901.

DESCRIPTIVE
Catalogue
OF THE
STOCK OF
Ornamentals

HELD BY

Messrs. Charlesworth & Co.
Leaton,
Bradford,
YORKS.

Presented to the L. H. Bailey Hortorium
by the Missouri Botanical Garden, 1972.

MO. BOT. GARDE.
1911

Telegraphic Address:—"CHARLESWORTH, HEATON, BRADFORD."

Cable Address:—"FLORA, BRADFORD."

Tram Cars starting from Darley Street, Bradford, run every five minutes to Victor Road, Manningham; our Nursery is about six minutes' walk from this terminus.

INTRODUCTION.

In presenting our Annual Catalogue, we beg to thank our Patrons for their past esteemed support, and can assure them that the Plants offered in the present issue are in even better condition than our Stock of last year, and which has given great satisfaction.

Every Plant described is in our Nursery.

Our prices will be found extremely reasonable, but must be understood to apply only to our present stock.

We have a most interesting and exhaustive stock of Seedling Cattleyas, Lælia Cattleyas, Sophro Cattleyas, perhaps the largest in existence, and shall be pleased to make special offers to any of our patrons or friends.

The Plants are on Sale, on receipt of Catalogue, and can be seen at any time.

Plants delivered immediately on receipt of order, subject to being unsold.

All orders will be taken in strict rotation.

All plants GUARANTEED TRUE TO NAME and description: should any customer, on receipt of plants ordered, be in any way dissatisfied, the plants may be returned to us.

If, by accident, any plant flowers untrue to description the purchase money will be refunded, with 5% interest added, and no further claim admitted.

The Paintings of several of the very choice plants can be seen on application.

In sending order by post or telegram, it will be sufficient to quote numbers in catalogue.

141	„ sanguinea.	Good plant, 8 bulbs, 4 with leaves, 1 good lead ...	0	5	0
142	Bulbophyllum BARBIGERUM.	An exceedingly rare plant; a curious and charming flower, produced on a raceme of 8 or 10 blooms; sepals are greenish brown; petals minute, not apparent, but the lip is most extraordinary; it is a long narrow yellowish body, with two deep purple beards of fine hairs at the point, and from its tips a brush of long purple threads, so delicate that the least disturbance of the air sets them in motion. Besides all this, the lip is so slightly attached at the base as to be moved with the slightest breath, which gives it the appearance of some- thing alive. Fine plant, 3 exceedingly fine bulbs, all leaved, 1 strong lead	10	10	0
143	„ Dayanum.	Extra fine plant, 10 fine bulbs, all with leaves, 3 strong leads	0	7	6

Cattleya amethystoglossa. See Lots 644.

CATTLEYA AUREA (Unflowered).

We call particular attention to this splendid lot of unflowered plants. Space does not permit us to describe all our specimen plants, but those enumerated are some of the finest pieces ever sent over. It is a well known fact that most of the finest *Cattleya Hardyana* varieties have been flowered from our importations. For distinct appearance the plants catalogued rival any we have previously offered, and we recommend them with the greatest confidence.

- 256 **Cattleya Eldorado "WALLISII."** Painting can be seen on application. Splendid form, of perfect shape, flower is large and open, white, with pale lemon-yellow throat. Grand plant, 11 extra strong bulbs, 7 leaves, 1 strong lead ... 12 12 0
- 257 " " **EXTRA FINE VARIETY.** Strong plant, 6 fine bulbs, 5 leaves, 1 good lead ... 6 6 0
- 258 " **FERNAND DENIS.** This fine hybrid received a First-class Certificate, Temple Show, 1898. One of the most striking plants exhibited, and which attracted universal attention. The flowers show clearly its parentage (*C. Gigas* and *C. Acklandia*), and the glowing colour of the lip is most pleasing. The sepals and petals are slightly spotted at their extremities, as might be expected from a hybrid from *Acklandia*. Magnificent plant, 10 exceedingly fine bulbs, 8 with leaves, 1 extra strong lead. Price on application.

CATTLEYA INTERMEDIA "ALBA."

The variety introduced by us some years ago is still acknowledged to be the finest form of this lovely white *Cattleya*. The following plants are in a splendid vigorous condition, and well worth attention.

Nos.		£	s.	d.
337	Magnificent plant in perfect condition, 7 extremely fine bulbs, all leaved, 2 strong leads, 1 with flower sheath	36	15	0
338	Splendid plant, 5 extra strong bulbs, all with leaves, 1 strong lead in sheath	31	10	0
339	Beautiful plant, 6 grand bulbs, all with leaves, 1 strong lead will probably have sheath	26	5	0
340	Grand plant, 5 extra fine bulbs, all with leaves, 1 strong lead and flower sheath	21	0	0
341	Very fine plant, 8 fine bulbs, 4 with leaves, 1 good lead	17	17	0
342	Fine plant, 6 good bulbs, all with leaves, 1 strong lead	15	15	0
343	Very good plant, 6 bulbs, all with leaves, 1 good lead	10	10	0
344	Cattleya "JOHN BAGULEY." (<i>Cattleya Bowringiana</i> × <i>Cattleya Hardyana</i>). Painting can be seen on application. A hybrid of exceptional merit. The plant has a remarkably fine constitution and the flowers are very handsome. Intermediate in shape and character; sepals and petals hold themselves slightly forward as in <i>Catt. Hardyana</i> ; deep rosy purple in colour; lip has also the richly coloured markings of some parent, the disc being traversed with golden yellow veins. First-class Certificate Manchester Botanical Society, Nov. 16th, 1899. Magnificent plant, 6 splendid bulbs, all leaved, 1 very strong lead

CATTLEYA MENDELII. Established. Unflowered.

We have no hesitation in saying that our stock of this lovely *Cattleya*, cannot be equalled in Europe. Space does not permit us to describe all our fine specimens, but some of the following are a selection from them, and to those interested in this charming *Cattleya*, they are well worth a visit. We have been pleased to learn from several of our customers, that from unflowered plants purchased from us last year, they have flowered some magnificent varieties, amongst which is the beautiful white form *Catt. Mendelii* “Mrs. A. Y. Lees,” which is even purer than “*Bluntii*.”

386	Matchless specimen, 70 very distinct and handsome bulbs, 55 leaves, 15 strong leads, 5 strong flower sheaths	15	15	0
387	Model specimen, 55 magnificent bulbs, 36 leaves, 12 strong leads, 3 strong flower sheaths	12	12	0
388	Splendid specimen, 27 very distinct looking bulbs, 20 extra broad leathery leaves, 4 strong leads, 4 flower sheaths	8	8	0

414		Cattleya Mendelii “ BRILLIANT. ” As the name implies this is one of the most brilliant forms yet seen. The flowers are of perfect shape, sepals and petals highly suffused; lip large and open and of the most intense and bright amethyst purple. Magnificent plant, 14 gigantic bulbs, 10 leaves, 2 strong leads, 2 flower sheaths 15 15 0
415	”	” (Portion of above.) Beautiful plant, 10 splendid bulbs, 5 with leaves, 2 strong leads, 2 flower sheaths 12 12 0
416	”	” “ DISTINCTION. ” Flower of fine form, sepals and petals pale rosy mauve; lip nearly white, beautifully fringed; a small blotch of light rose-purple in the throat. A most distinct and handsome variety. Grand plant, 7 specially fine bulbs, all leaved, 2 strong leads, and 1 flower sheath 10 10 0
417	”	” (Portion of above.) Splendid plant, 5 very fine bulbs, all leaved, 1 lead and flower sheath 7 7 0
418	”	” “ EXCELSIOR. ” A most exquisite variety. Fine perfect shaped flowers, sepals and petals white faintly suffused with rose, lip large, deeply fringed; two thirds being of the most brilliant magenta-purple, upper portion white, a beautiful deep yellow veining traversing to the throat. Beautiful plant, 10 very fine bulbs, 7 with leaves, 2 strong leads, 1 flower sheath 15 15 0
419	”	” (Portion of above.) Grand plant, 9 fine bulbs, 5 with leaves, 2 good leads 10 10 0
420	”	” (Portion of 418.) Magnificent plant, 14 very fine bulbs, 9 with leaves, 3 leads 18 18 0
421	”	” GIGANTEA. A bold, exceedingly large, striking form, most highly and richly coloured. One of the finest. Beautiful plant, 11 very fine bulbs, 8 with leaves, 2 strong leads 8 8 0
422	”	” (Portion of above.) Fine plant, 5 nice bulbs, 4 with leaves, 1 good lead 5 5 0
423	”	” “ GRANDIFLORA. ” A magnificent variety of the species, flowers are of enormous size, sepals and petals almost pure white, of fine substance, and very broad; lip broad, well fringed; rich magenta-rose, white and frilled at the edge; throat lemon yellow, marked with pale magenta rose lines. Splendid plant, 13 specially fine bulbs, 9 with leaves, 3 strong leads, 1 flower sheath 10 10 0
424	”	” (Portion of above.) Grand plant, 7 gigantic bulbs, 4 with leaves, 1 extra strong lead, with flower sheath 7 7 0
425	”	” (Portion of 423.) Beautiful plant, 6 splendid bulbs, 3 with leaves, 1 strong lead, and flower sheath 5 5 0
426	”	” “ ILLUSTRIS. ” Painting can be seen on application. A superb form, of fine shape and substance, sepals and petals pale rosy mauve, lip large and well frilled, with a large front area of deep magenta rose, extending in the form of a margin round the shoulder and running into the throat, which is traversed by pale yellow lines. Splendid plant, 8 very fine bulbs, 5 with leaves, 2 strong leads, 1 flower sheath 6 6 0

Nos.			£	s.	d.
427	Cattleya Mendelii	ILLUSTRIS. (Portion of 426.) Very fine plant, 7 good bulbs, 6 with leaves, 1 strong lead, 1 flower sheath	5	5	0
428	„ „	“IMPERATOR.” A lovely form, of exceedingly bold appearance, with an immense richly coloured open lip; sepals and petals of perfect shape, large and round, and of a pretty shade of mauve. Very fine plant, 17 good bulbs, 12 with leaves, 4 strong leads, 2 flower sheaths	8	8	0
429	„ „	(Portion of above.) Grand plant, 9 very fine bulbs, 6 with leaves, 2 strong leads, 1 flower sheath	5	5	0
430	„ „	(Portion of 428.) Fine plant, 7 fine bulbs, 4 with leaves, 1 strong lead, with flower sheath	3	3	0
431	„ „	“MAGNIFICA.” The finest form. Superb plant, 9 specially fine bulbs, all leaved, 2 strong leads, both with flower sheath	12	12	0
432	„ „	(Portion of above.) Grand plant, 7 very fine bulbs, 5 with leaves, 2 leads, 1 flower sheath	10	10	0
433	„ „	Very fine plant, 6 good bulbs, 4 with leaves, 1 strong lead, with flower sheath	7	7	0
434	„ „	“MARGINATA.” A distinct and handsome form; flowers of perfect shape and substance, very bold lip, with a fine deep white frilling round the margin of the lip. Magnificent plant, 6 specially fine bulbs, 4 with leaves, 1 extra strong lead and flower sheath	6	6	0
435	„ „	(Portion of above.) Very fine plant, 8 good bulbs, 6 with leaves, 2 leads, 1 flower sheath	5	5	0
436	„ „	“METEOR.” This fine variety is one of the most perfect forms possible to conceive; the sepals and petals are extremely broad, nearly white; the large lip is much frilled and of a deep amethyst purple. A fine acquisition. Splendid plant, 22 extra fine bulbs, 15 with leaves, 4 strong leads, 2 flower sheaths	15	15	0
437	„ „	(Portion of above.) Grand plant, 10 very fine bulbs, 7 with leaves, 3 strong leads, 2 flower sheaths	10	10	0
438	„ „	(Portion of 436.) Very fine plant, 9 good bulbs, 6 leaves, 2 leads, 1 flower sheath	7	7	0
439	„ „	“MISS LITTLE.” Painting can be seen on application. A most chaste, and one of the finest forms of <i>Catt. Mendelii</i> , most perfect in form and texture. The whole flower is pure white, with the exception of a very small blotch of purple crimson in the front of the lip near the apex; the whole lip is beautifully and deeply frilled, giving the flower a very attractive appearance. Very good plant, 7 good healthy bulbs, 5 with leaves, 1 fine lead	86	15	0
440	„ „	“PLUMOSA.” A most attractive form; of perfect shape; sepals and petals deep mauve, the latter being feathered with a colouring of magenta rose, lip broad and long, very much fringed and of a rich magenta colour. Grand plant, 10 very fine bulbs, 7 with leaves, 2 strong leads, 1 fine flower sheath	7	7	0

- 441 **Cattleya Mendelli "PRINCESS VICTORIA."** Painting can be seen on application. A beautiful form, of perfect shape and fine substance. Sepals and petals broad, white; lip much crisped, white in front, with a medium blotch of canary yellow at the base, and streaks of dull rose colour running into the throat, on a white ground. The variety is quite distinct from any yet flowered. Magnificent plant, 6 extra fine bulbs, 5 with leaves, 1 extra strong lead & flower sheath 36 15 0

CATTLEYA MOSSIÆ.

496	" "	Strong plant, 6 very fine bulbs, all leaved, 1 strong lead	8	8	0
497	" "	Fine plant, 6 good bulbs, 5 with leaves, 1 good lead... ..	7	7	0
498	" "	Mrs. J. W. WHITELEY. An exceedingly handsome hybrid, a cross between <i>Catt. Bowringiana</i> , fine variety, and <i>Catt. Massaiana</i> . The flower is very intermediate in character, measuring 5½ inches in diameter, sepals broad, and deep rose; petals broad, well shaped, of a deeper shade of rose; lip exceedingly fine, with a beautiful deep margin of bright crimson maroon; deeper towards the apex and finely fringed with white, the area of lip dark rose, with lines of golden yellow; with 2 large eyes, of the same colour as in <i>Catt. Massaiana</i> . Magnificent plant, 7 grand bulbs, all with leaves, 1 extra strong lead	21	0	0
499	" "	Grand plant, 6 magnificent bulbs, 1 extra strong lead	18	18	0
500	" "	Very fine plant, 5 splendid bulbs, all with leaves, 1 strong lead	15	15	0
501	" "	"PANDORA" (<i>Catt. Trianae</i> × <i>Catt. bicolor</i>). A most brilliant hybrid, very intermediate in character, sepals and petals of deep rose-purple, lip as in <i>Catt. bicolor</i> , but immensely richer in colour, the whole portion being a deep crimson-purple. Splendid plant, 6 very fine bulbs, 5 with leaves, 1 of which is a very strong lead	5	5	0

Nos.			£	s.	d.
502	Cattleya "PARTHENIA VERNALIS."	A beautiful hybrid, a cross between <i>Catt. Fimbriata</i> and <i>Catt. Mossiae</i> ; sepals pure white, petals nearly white, undulated and slightly suffused with rose; lip fimbriated, porcelain white outside throat, sulphur yellow at the base, marked with four carmine lines in the centre, front portion delicate violet rose, striated with carmine. Specially fine plant, 8 grand bulbs, all with leaves, 1 strong lead	10	10	0
503	"	Very fine plant, 5 good bulbs, 4 with leaves, 1 good lead	7	7	0
504	Percivaliana.	Extra fine plant, 13 very fine bulbs, 12 leaves, 2 strong leads	1	11	6
505	"MAGNIFICA."	Painting can be seen on application. A superb variety of perfect shape, sepals and petals deep rosy-mauve; lip is exceedingly richly coloured with bright amethyst. Nice plant, 6 bulbs, 4 leaves, 1 lead	3	3	0
506	"SUPERBA."	A specially fine form; grand shape and splendid colour. Nice plant, 8 good bulbs, 7 leaves, 2 good leads	1	11	6
507	"	Good plant, 7 bulbs, 4 leaves, 1 strong lead	1	1	0
507A	ARIEL (<i>Catt. Bowringiana</i> × <i>Catt. Gaskelliana</i>).	A very pretty hybrid; intermediate in shape; sepals and petals broad, deep rosy-mauve; lip is well opened and has a deep amethyst blotch in the front, with lines and veinings of bright yellow. Beautiful plant, 7 good bulbs, all leaved, 1 strong lead	5	5	0
508	"PORTIA" (<i>Catt. Bowringiana</i> × <i>Catt. Labiata</i>).	This is a very pretty hybrid, the character of both parents being strikingly apparent both in growth and flower. Sepals and petals are broad and stand well back, deep rose mauve; lip intermediate in shape, the bright crimson front being derived from a fine dark lipped form of <i>Cattleya Labiata</i> ; the base and throat have light yellow veinings. Grand plant, 8 magnificent bulbs, 5 with leaves, 1 strong lead	5	5	0
509	"	Very fine plant, 5 good bulbs, all leaved, 1 strong lead	4	4	0
510	"SUPERBA."	Grand plant, 4 fine bulbs, all leaved, 1 strong lead	5	5	0
511	"PRINCESS" (<i>Catt. Trianae</i> × <i>Catt. Luddemanniana</i>).	Painting can be seen on application. One of the finest hybrids yet raised. A grand bold flower of the typical <i>Catt. Labiata</i> form, but with all its parts, especially the petals and lip exceedingly broad. In colour the sepals and petals are of a pretty rose; lip bright reddish purple, with diverging orange coloured lines from the base to the centre. Award of Merit, R.H.S., Oct. 24th, 1899. Healthy plant, 2 nice bulbs, both with leaves, 1 lead	21	0	0
512	REX.	Very fine plant, 8 good bulbs, 4 leaves, 1 strong lead	2	2	0

524	GOOD BRIGHT VARIETY. Splendid plant, 20 very fine bulbs, 12 with leaves, 3 strong leads	2	2	0
525	FINE BRIGHT VARIETY. Fine plant, 6 good bulbs, all leaved, 1 strong lead	0	15	0
525A	Cattleya SCHOFIELDIANA "AUREA." The finest variety ever flowered. A most remarkable form, of enormous size, and extraordinary substance. The sepals and petals are broad, and of a bright canary-yellow, densely spotted with crimson-purple; lip is exceedingly large, covered with the darkest magenta-purple. This is a fine acquisition, as there are very few first-rate forms of this Cattleya. Grand plant, 8 very strong bulbs, all leaved, 2 strong leads			
		12	12	0

CATTLEYA SCHRODERÆ.

CYMBIDIUM EBURNEUM.

The following are probably some of the finest specimens of this choice species that can be found in cultivation.

Nos.		£	s.	d.
707	Unique specimen in perfect health, 16 magnificent bulbs, 13 with leaves, 2 strong new growths, 8 flower spikes	15	15	0
708	Beautiful specimen, 11 extra fine bulbs, 7 with leaves, 2 strong new growths, 8 flower spikes	12	12	0
709	Compact specimen, 6 extra strong bulbs, 5 with leaves, 2 very strong young growths, 2 flower spikes showing	10	10	0
710	Grand plant, 8 very fine bulbs, all with leaves, 6 flower spikes	7	7	0
711	Fine specimen, 9 very fine bulbs, 6 with leaves, 1 flower spike	8	8	0
712	Good plant, 3 good bulbs, 2 with leaves, 1 flower spike	1	1	0
713	Cymbidium EBURNEO-LOWIANUM. The large flowered variety. A lovely hybrid between <i>Cym. Eburneum</i> × <i>Cym. Lowianum</i> . The flowers are equal in form to the best <i>Cym. Eburneum</i> , and delightfully fragrant; sepals and petals are similar and sub equal, almost ivory white. The petals and lateral sepals spreading, dorsal sepal bent forward, lip nearly as in <i>Lowianum</i> , white inside, with a V-shaped red crimson blotch on the front lobe. Magnificent plant, and best variety, 4 gigantic bulbs, 2 with leaves, 2 strong new growths

1153	Cypripedium PENELOPE (<i>Morgania</i> × <i>Veitchii</i>). Undoubtedly one of the prettiest hybrids yet raised ; dorsal sepal 2½ inches long, creamy white background with nerves of light green, these nerves for three-parts of their course being covered with rows of small purple dots. Petals measure 4 inches long, and 1 inch broad, and hold themselves in the same form as <i>Cyp. Morgania</i> ; background creamy white, with strong veining and suffusion of a light green colour which gradually vanish as they approach the tips, the whole surface being almost covered with irregular purplish spots, many of them being minute dots ; lip nearly 2 inches long, reddish brown ; staminode of a green marbling. The colouring of the flower is most pleasing. A fine acquisition. Grand plant, 1 very strong flowered growth, 5 very strong leaves, sure to break very strongly.			31	10	0			
1154	„	PLEIDES (<i>Sallierii Hycanum</i> × <i>Ciliolare</i>). A very distinct and handsome hybrid ; a fine combination of colouring ; dorsal sepal medium broad, greenish white background, suffused with reddish and bright brown, with lines of a darker shade ; petals broad, upper halves purple rose ; lower ones faint green, slightly suffused with purple rose ; the whole petals heavily spotted with deep claret spots ; lip reddish brown. 1588	„ „	Good plant, 3 nice bulbs, 1 to 5 inches long	3	13	6
1589	„ SYBIL (<i>Bigibbum</i> × <i>Linawianum</i>).	Painting can be seen on application. This beautiful hybrid was raised in the collection of Norman C. Cookson, Esq., Wylam-on-Tyne, and received a First-class Certificate from the Royal Horticultural Society. It is a richly coloured flower, of thick substance; sepals and petals are deeply stained with dark purple, extending nearly to apex in the lip, and gradually softening; lip has a deep stain of the dark purple at the bottom; a white margin closing in the apex, which is yellow, with 2 reddish blotches; a most handsome flower. Fine healthy plant, 3 good bulbs, 6, 11, and 12 inches long, 1 strong lead	8	8	0
1590	„ „	Good plant, 4 very nice bulbs, 4, 4, 4, and 4½ inches long	6	6	0
1591	„ „	“ SUPERBUM. ” Λ most beautiful form, the colouration being in wavy flashes and streaks. Superb plant, 4 magnificent bulbs, 7½, 13, 19, and 23 inches long, 1 exceptionally strong lead	26	5	0

Nos.							£	s.	d.
1592		Dendrobium SYBIL "SUPERBUM."	Splendid plant, 3 magnificent bulbs, 14, 16, and 23 inches long, 1 exceptionally strong lead	26	5	0
1593	"	"	Grand plant, 3 splendid bulbs, 6, 14, and 14½ inches long, 1 strong lead	18	18	0
1594	"	SPECTABILE.	Magnificent plant, 12 extra fine bulbs, 9 with leaves, longest bulb 17 inches long, 3 extra strong leads	7	7	0
1595	"	SPLENDIDISSIMUM GRANDIFLORUM.	A grand hybrid, having been raised from exceptional fine forms of <i>Den. Aureum</i> and <i>Den. Nobile</i> . Sepals and petals are a rich rosy purple at the tips, becoming paler towards the base where they are white; the disc of lip is unusually large, of the richest Indian purple, surrounded by a pale yellow zone; apex rose purple. Magnificent plant, 6 splendid bulbs 8 to 15 inches long, 2 being very strong leads	8	8	0

1607	"	"	Very nice plant, 4 good bulbs, 5 to 10 inches long	4	4	0
1608	"	"	LEEANUM. First-class Certificate. An exceedingly large and well-formed flower. The tips of segments very distinctly marked with purple. Lip is very broad, with a very large dark maroon blotch. Grand plant, 7 splendid bulbs 14 to 22 inches long	10	10	0
1609	"	"	Superb plant, 4 fine bulbs 11 to 17 inches long	6	6	0
1610	"	"	Splendid plant, 7 good bulbs 6 to 15 inches long	5	5	0
1611	"	"	Good plant, 4 fine bulbs, the longest 8 inches long	2	2	0

1612		Dendrobium SYLVIA (<i>Leechianum Superbum</i> × <i>Nobile Elegans</i>). The flower is 3½ inches across, very well-shaped ; sepals and petals white, with a beautiful ruby margin. The lip is white, with a crimson purple disc, margined and tipped with ruby, giving the flower a most pleasing appearance. Strong plant, 14 good bulbs, 3 of which are new... ..	1	5	0	
1613	„	„	Very good plant, 9 bulbs, 2 of which are new	1	1	0
1614	„	„	Fine plant, 4 strong bulbs, 1 extra strong lead	0	15	0
1615	„	„	Good plant, 8 nice bulbs, 2 of which are new	0	15	0
1616	„	„	Nice plant, 5 bulbs, 1 strong lead	0	10	6
1617	„	suavissimum . Splendid specimen, 60 very fine bulbs, 20 with leaves, 6 strong leads	3	3	0	
1618	„	„	Grand plants, 14 to 16 very fine bulbs, 3 strong leads each each	1	1	0
1619	„	THALIA (<i>Ainsworthii</i> × <i>Nobile Nobilius</i>). Very strong plant, 3 good bulbs, longest is a strong lead 8 inches long	3	3	0	
1620	„	„	Very good plant, 3 strong bulbs, 1 of which is new, 5½ inches long	2	2	0
1621	„	THE PEARL (<i>Ainsworthii</i> × <i>Findlayanum</i>). A beautiful hybrid. The sepals and petals are pure white, with rosy tips ; lip white, tipped with rose, and the throat of the deepest magenta purple. Magnificent plant, 6 gigantic bulbs, the longest 24 inches	8	8	0	
1622	„	Thyrsiflorum . Magnificent specimen, 45 gigantic bulbs, 22 with leaves, 7 of which are new bulbs	2	2	0	
1623	„	„	Splendid plant, 46 grand bulbs, 15 with leaves, 7 of which are new bulbs	2	2	0
1624	„	„	Model plant, 17 immense bulbs, 10 with leaves, 5 of which are new bulbs	1	1	0
1625	„	„	Grand plant, 27 extra fine bulbs, 14 with leaves, 6 of which are new	1	1	0
1626	„	„	Splendid plant, 19 grand bulbs, 10 with leaves, 3 strong leads	0	15	0
1627	„	„	Very fine plant, 14 good bulbs, 5 with leaves, 3 strong leads	0	7	6
1628	„	„	Very good plants, 14 to 16 bulbs, 2 and 3 strong leads each	0	5	0
1629	„	VANNERIANUM (<i>Japonicum</i> × <i>Falconerii</i>). A beautiful hybrid, very intermediate in character. Very nice plant, 8 good bulbs, 2 of which are new	3	3	0	
1630	„	VENUS (<i>Falconerii</i> × <i>Nobile</i>). Although this fine hybrid has been raised some considerable time, it still holds its position as one of the finest. The parentage is easily discerned, the bright colour of the <i>Falconerii</i> lip, being very prominent, whilst the shape is very intermediate, the <i>Nobile</i> giving a better substance than is seen in <i>Falconerii</i> . Nice plant, 4 good bulbs, 2 of which are new	1	11	6	
1631	„	„	Nice plant, 8 good bulbs, 2 of which are new	1	1	0
1631A	„	„	“MAGNIFICA.” Good plant, 11 fine bulbs, 1 good lead	3	3	0

Nos.			£	s.	d.
1632		Dendrobium Wardianum. Superb specimen, 20 extra strong bulbs, 6 of which are new	2	2	0
1633	„ „	Grand plant, 20 splendid bulbs, 5 of which are new ...	1	15	0
1634	„ „	Grand plant, 15 magnificent bulbs, 6 of which are new ...	1	11	6
1635	„ „	Splendid plants, 9 to 12 extra fine bulbs, 2 and 3 of which are new each	0	10	6
1636	„ „	Very fine plants, 7 to 10 very fine bulbs, 2 and 3 of which are new... .. each	0	7	6
1637	„ „	Very good plants, 5 to 7 strong bulbs, 1 and 2 of which are new each	0	5	0
1638	„ „	“ ALBUM. ” Fine variety. Strong plant, 4 good bulbs, 1 of which is new and strong	8	3	0
1639	„ „	„ Nice plant, 5 good bulbs, 1 of which is new and strong	2	12	6
1640	„ „	„ Nice plant, 4 good bulbs, 1 of which is new ..	2	2	0
1641	„ „	CANDIDUM. Strong plant, 5 very good bulbs, 1 of which is new	4	4	0
1642	„ „	“ HEATON VARIETY. ” An exceptionally large and beautifully coloured form; the magenta markings on the petals being very intense. Strong plant, 5 very good bulbs, 1 of which is new	2	2	0
1643	„	WIGANIÆ (<i>Nobile</i> × <i>Signatum</i>). A very charming hybrid. Flowers measure about $3\frac{1}{4}$ inches across; segments white, with a slight trace of pale sulphur, except at the tips of petals, where there is a faint flush of pink. Lip is well opened; like the sepals and petals in colour, except that the area round the disc is pale primrose. A fine acquisition. Splendid variety. Magnificent plant, 5 exceedingly fine bulbs, 2, 6, 9, 16 and 23 inches long, the last being an extra strong lead	21	0	0
1644	„ „	Grand plant, 4 splendid bulbs, 10, 14, 18 and 19 inches long, the last being a strong lead	15	15	0
1645	„ „	Splendid plant, 5 very fine bulbs, 1, 10, 14, 15, and 13 inches long, the last being a strong lead	12	12	0
1646	„ „	Very strong plant, 4 very good bulbs, 3, 4, 8, and 13 inches long, the last bulb is a strong lead	8	8	0
1647	„ „	Very fine plant, 4 strong bulbs, 10, 11, 13, and 12 inches long, the last being a strong lead	10	10	0
1648	„ „	Healthy propagated plant, 3 nice bulbs, 1, $2\frac{1}{2}$, and $2\frac{1}{2}$ inches long	2	2	0
1649	„	XANTHOCENTRUM (<i>Findlayanum</i> × ?). A very fine hybrid, having the flowers lightly flushed with rose, darker at the tips of the segments; the disc of the lip being deep orange. <i>D. Findlayanum</i> was one of the parents, but the other is not recorded. It reminds one of a glorified form of <i>Den. Schneiderianum</i> , and is a plant worthy of a place in the finest collection. Superb plant, 6 magnificent bulbs, 8, $9\frac{1}{2}$, 10, 12, 18, and 18 inches, the last being an exceptional strong lead	15	15	0

Nos.			£	s.	d.
1650	Dendrobium Unflowered Seedling (<i>Den. Formosum</i> × <i>Lowii</i>). This cross should produce a very striking hybrid. Magnificent plant, 4 very good bulbs, the last is a very strong lead, measuring 14 inches; should flower this season	7	7	0
1651	„ „ „ Very strong plant, 10 fine bulbs, 1 of which is a strong lead measuring 5 inches	6	6	0

LÆLIO - CATTLEYAS.

1888			Lælio-Cattleya ADMIRAL DEWEY. Painting can be seen on application. (<i>Catt. Warnerii</i> “ <i>Formosa</i> ” × <i>Lælia Elegans Mastersii</i>). This fine hybrid received a First-class Certificate, Temple Show, 1898, and is undoubtedly one of the finest of its class yet seen. Flowers very intermediate in character ; sepals and petals broad ; of a beautiful shade of light purplish rose. The tube of the lip is very broad, bright rose purple, with darker veins ; inside there are two light creamy patches on either side of a central band of royal purple. The front of the lip is exceptionally broad, with wavy crisped margin, and of a glowing rich red purple. A beautiful acquisition. Grand plant, 7 very good bulbs, 5 with leaves, 1 very strong lead 36 15 0
------	--	--	--

1889		Lælio-Cattleya ALBANENSE. "VARIETY LADY BROUGHAM." A supposed natural hybrid between <i>Catt. Warnerii</i> × <i>Lælia Grandis</i> . This particular variety (Lady Brougham) shows a distinct bronze shade over the rosy mauve surface of the broad sepals and petals; the purple crimson lip also shows the same influence. It is a most attractive flower. Strong healthy plant, 6 very fine bulbs, 4 with leaves, 1 strong lead and flower sheath	12	12	0
1890	"	ARNOLDIANA (<i>L. Purpurata</i> × <i>C. Labiata</i>). Fine variety. A superb hybrid, sepals and petals pale rose, suffused with purple rose and very broad, and having a medium line of rosy purple; lip large, front lobe deep rosy purple, veined with deep purple; throat yellow, with radiating maroon veins. Splendid plant, 7 grand bulbs, all leaved, 1 exceptionally strong lead	21	0	0
1891	"	AURORA (<i>L. Dayana</i> × <i>Catt. Loddigesii</i>). A nice combination; sepals and petals are light rosy purple; the anterior portion of the lip, deep rosy purple, with a pretty yellow throat. Very good plant, 10 fine bulbs, all leaved, 1 very strong lead	1	1	0
1892	"	CALLISTOGLOSSA (<i>L. Purpurata</i> × <i>Cattleya Gigas</i>). Painting can be seen on application. This is an exceptional fine form of this lovely hybrid, raised from two superior parents. Flowers are immense; sepals and petals of bright rose and wavy; lip enormous, very rich magenta; throat orange, veined with reddish purple. Magnificent plant, 8 gigantic bulbs, 6 with leaves, 2 very strong leads	10	10	0
1893	"	" Grand plant, 8 fine bulbs, 5 with leaves, 1 strong lead ...	7	7	0
1894	"	CANHAMIANA (<i>L. Purpurata</i> × <i>Catt. Mossiæ</i>). A fine hybrid, very intermediate in character; sepals and petals white, flushed with pale rose purple; petals broad; the anterior portion of the lip is stained with the richest purple, with a narrow white, slightly crisped margin; throat orange yellow, streaked with purple. Grand plant, 7 very fine bulbs, 5 leaves, 1 strong lead	7	7	0
1895	"	CAPPEI (<i>Lælia Cinnabarina</i> × <i>Cattleya Gigas</i>). Painting can be seen on application. Very pretty hybrid; carries 3 and 4 flowers on a spike; sepals and petals clear light yellow; lip trilobed, much crisped, and with the front lobe and tips of the side lobes of a pretty light purple shade, the remainder including the throat being yellow. FINE VARIETY. Splendid plant, 5 grand bulbs, all with leaves, 1 very strong lead	7	7	0
1896	"	" Very good plant, 5 strong bulbs, all with leaves, 1 strong lead	6	6	0
1897	"	CHARLESWORTHII (<i>L. Cinnabarina</i> × <i>Catt. Aurca</i>). Painting can be seen on application. A very fine hybrid, intermediate in shape, and of exquisite colour; sepals and petals orange scarlet; whilst the lip is covered with a considerable deeper shade of orange scarlet extending right up into the throat. Award of Merit, R. H. S., Jan. 23rd, 1900. Magnificent plant, 6 extra fine bulbs, all with leaves, 1 extra strong lead	21	0	0

Nos.			£	s.	d.

Nos.

1910		Lælio-Cattleya VELUTINO-ELEGANS. A pretty hybrid derived from <i>Cattleya Velutina</i> and <i>Lælio-Cattleya Elegans</i> , and which received a First-class Certificate at Paris. The flowers are fragrant, and are produced several together in an erect raceme, the sepals being creamy white, tinged with nankeen yellow, and veined with rose, and the lip bluish white at the base, with the front lobe rich crimson purple, veined with white, and having an orange blotch at the base. Extra strong plant, 6 fine bulbs, 5 with leaves, 1 strong lead 4 4 0
1941	"	WARNHAMENSE VARIETY HYPATIA (<i>Lælia Cinnabarina</i> × <i>Cattleya Triana Normanii</i>). Painting can be seen on application. The <i>Gardeners' Chronicle</i> , Feb. 18th, 1899, says:—"A marked improvement on the original type. The flowers are yellow, with claret crimson front to the lip, which is better displayed than in others of its class." Award of Merit, Royal Horticultural Society, London, February 14th, 1899. Magnificent plant, 7 splendid bulbs, all leaved, 1 exceptionally strong lead and flower sheath 15 15 0
1942	"	" " " Grand plant, 6 very strong bulbs, all leaved, 1 strong lead 12 12 0
1943	"	" " " Very fine plant, 8 strong bulbs, 7 with leaves, 2 leads 10 10 0
1944	"	WILHELMINA (<i>L. Elegans</i> × <i>Catt. Labiata</i>). One of the finest hybrids we have flowered; almost similar to <i>Cattleya "Le Czar"</i> ; a bold flower of fine substance; sepals and petals broad, deep mauve; lip flat, very broad and of the most intense deep amethyst; throat bright yellow. Magnificent plant, 10 splendid bulbs, all leaved, 2 strong leads 26 5 0

LYCASTES.

1964	" "	Nice plants, 3 to 5 bulbs, 1 good lead	0	2	0

The following are Unflowered plants, and as we have already flowered some magnificent varieties from the same importation, we recommend them with the greatest confidence.

1965		Lycaste Skinnerii. Magnificent plants, 4 to 6 exceptionally strong bulbs, 1 very strong lead	0	7	6
1966	" "	Grand plants, 4 and 5 very strong bulbs, 1 strong lead	0	5	0
1967	" "	"LADY GLADYS." Painting can be seen on application. Perhaps the most pleasing white variety yet flowered. The blooms are very large and of splendid substance, white, with a light suffusion of rose colour on the tips of petals. Quite distinct from any form yet seen. Beautiful plant, 3 fine bulbs, 1 with leaves, 1 strong lead	26	5	0
1968	" "	"DELICATA." A beautiful light coloured form, most distinct and handsome. Splendid plant, 5 very fine bulbs, 1 strong lead showing for flower	3	3	0
1969	" "	"GIGANTEA." A specially fine, large, well coloured form. Magnificent plant, 4 extra strong bulbs, 1 strong lead	1	1	0
1970	" "	"ROSEA." Splendid plant, 5 extra strong bulbs, 1 strong lead	1	1	0

Nos.			£	s.	d.
1971	Lycaste Skinnerii "GRANDIS."	Splendid plant, 7 very fine bulbs, 2 strong leads	0	10	6
1972	" "	"JUPITER." Painting can be seen on application. A fine shaped lovely form. Grand plant, 6 extra strong healthy bulbs, 2 strong leads	1	1	0
1973	" "	"MARMORATA." Distinct and pretty form. Splendid plant, 8 very strong bulbs, 2 strong leads	1	1	0
1974	" "	"MAXIMA." Painting can be seen on application. An exceedingly pretty form; flowers are large and of good substance; sepals and petals white, suffused with rose; lip white, with small crimson spots; throat deeply stained with purple crimson. Grand plant, 11 magnificent bulbs, 2 extra strong leads, 3 flower spikes	2	12	6
1974A	" "	"ROSEA." A splendid deep coloured variety. Very fine plant, 5 good bulbs, 1 strong lead	1	1	0
1975	" "	"SUPERBA." Very fine plant, 5 very strong bulbs, 1 strong lead	1	11	6
1977	" "	"RUBELLA." A magnificent form with an exceptionally large rich coloured lip. Grand plant, 6 fine bulbs, 1 strong lead	1	1	0
1978	" "	"SYMETRICUM." One of the best varieties. Flowers perfectly round, of splendid substance and beautiful colour. Magnificent plant, 6 very strong bulbs, 1 strong lead	3	3	0

MASDEVALLIAS.

1979	Masdevallia angulata.	Splendid plant, 16 very fine leaves	1	11	6
1980	" "	Grand plant, 10 magnificent leaves	1	5	0
1981	AJAX (<i>Chelsonii</i> × <i>Peristeria</i>).	A very pretty hybrid; the flowers are fairly intermediate in character. The perianth is very densely spotted with reddish brown on a bright yellowish ground, the numerous short hairs present show some of that violet iridescence seen in <i>M. Chelsonii</i> . The tails are very dark, the lateral ones cross each other. Grand plant, 13 magnificent leaves... ..	1	11	6
1982	" "	Very fine plant, 9 very fine leaves	1	5	0
1983	Barlaeana.	Very good plant, 20 healthy leaves	0	5	0

1985	calura.	Nice plant, 7 good leaves	0	3	6
1986	" "	Good plant, 6 nice leaves	0	2	6
1987	Chestertonii.	Very nice plant, 19 good leaves... ..	0	15	0
1988	" "	Good plant, 15 leaves	0	12	6
1989	Chelsonii (<i>Amabilis</i> × <i>Veitchiana</i>).	Good plant, 11 fine leaves, showing well for flower	0	3	6
1990	" "	"Superba." Good plant, 9 fine leaves	0	7	6
1991	chimæra.	Strong plant, 19 good leaves	0	7	6
1992	" "	THE BEST VARIETY. Splendid plant, 23 very fine leaves	1	1	0
1993	" "	Same Variety. Very good plant, 16 very fine leaves	0	15	0

Nos.				ℓ	s.	d.
1994	Masdevallia	chimæra	Roezlii. Good plant, 21 strong leaves ...	0	7	6
1995	"	"	" Fine plant, 12 strong leaves	0	5	0
1996	"	"	" Nigrum. Fine plant, 11 good leaves	0	5	0
1997	"	"	" Wallisii. Very nice plant, 17 healthy leaves	0	7	6
1998	"	"	" Strong plant, 11 healthy leaves... ..	0	5	0
1999	"	"	" "STUPENDA." The finest of the group yet seen, on account of the great breadth of the triangular surface of its sepals and its rich colouring. Very strong plant, 16 strong leaves	2	2	0
2000	"	"	" Good healthy plant, 7 strong leaves	1	1	0
2001	"	"	" Winniana. A handsome form of the section; the peduncles are very erect, varying from 12 to 14 inches in height, the flower measures as much as 20 inches in diameter. Very fine plant, 24 healthy leaves	2	2	0
2002	"	"	" Good plant, 10 good leaves	1	1	0
2003	"	"	" Radiosa. (True.) Fine plant, 20 very nice leaves	0	10	6
2004	"	"	" corniculata. Fine healthy plant, 7 extra strong leaves	1	11	6
2005	"	"	" CHAMBERLAINIANA. A handsome hybrid, between <i>M. Harryana Coccinea</i> and <i>M. Shuttleworthii</i> . The flower is about intermediate in shape, and the colour is light rose purple, except on the dorsal sepal, which is whitish yellow, veined and suffused near the margin with light rose purple; this organ much resembles <i>Shuttleworthii</i> in shape, and some minute darker spots on the lateral sepals show the influence of the same parent. Nice plant, 14 strong leaves	5	5	0
2006	"	"	" Strong plant, 8 good leaves	2	2	0
2007	"	"	" CURLEI. A fine acquisition. A fine and pretty hybrid between <i>M. Macrura</i> × <i>M. Tovarensis</i> . The plant has the same habit as <i>M. Tovarensis</i> , and flowers from its old scapes, producing 2 and 3 fine white flowers as large as <i>M. Macrura</i> , the long tails being greenish at the base. Splendid plant, 7 extra strong leaves, showing well for flower.	4	4	0
2008	"	"	" Strong plant, 5 good leaves	3	3	0
2009	"	"	" Nice plant, 4 leaves	2	2	0
2010	"	"	" COURTAULDIANA. A pretty hybrid between <i>M. Rosea</i> , and <i>M. Shuttleworthii</i> . The flower is about intermediate in character, in colour inclining towards <i>M. Rosea</i> , but in shape it resembles its other parent. Magnificent plant, 32 extra strong healthy leaves	1	11	6
2011	"	"	" Very strong plant, 25 extra strong healthy leaves	1	5	0
2012	"	"	" Davisii. Strong healthy plant, 12 fine leaves	0	15	0
2013	"	"	" Nice plant, 10 strong leaves	0	12	6
2014	"	"	" Demisa. Nice plant, 10 good leaves	0	2	6

ODONTOGLOSSUMS.

2152	Odontoglossum ADRIANE.	Specially fine form. A supposed natural hybrid between <i>Od. Crispum</i> and <i>Od. Hunnewellianum</i> . The sepals and petals are broad, light yellow in colour, whitish towards the centre, and bear numerous red brown spots; those on the sepals being confluent into blotches. The lip is broad, ground colour whitish, with numerous red brown spots, margined with a row of minute spots towards the base. It is a very handsome <i>Odontoglossum</i> . ODONTOGLOSSUM CRISPUM.

We have again great pleasure in calling special attention to our stock of *Odontoglossum crispum*, which we venture to say is finer than any in Europe.

We continue to sell large quantities of this lovely and useful Orchid, and this we consider is a simple proof that our type of flowers and quality of plants have given every satisfaction.

**Anyone desirous of purchasing large quantities, should
see our plants before purchasing elsewhere.**

The following are **PROVED.**

GOOD AVERAGE VARIETIES.

- 2290 **Odontoglossum CRISPO-HARRYANUM.** Painting can be seen on application. A magnificent hybrid between *Od. Crispum* × *Harryanum*. The plant offered is an exceptional fine variety, with creamy white background, with intense deep madder-purple blotches and spots. Lip is very large and unusually well opened, pure white, spotted at the base near the crest with madder purple, and minute rows of dots of the same colour running up to the yellow crest. Grand plant, 5 splendid bulbs, 2 with leaves, 1 extra strong lead 52 10 0
- 2291 „ **DUVIVIERIANUM.** A remarkably pretty natural hybrid, between *Od. Nebulosum* and *Od. Maculatum*. Pretty in form and novel in colouring; the ground of the flower is white as in *Od. Nebulosum*, which it much resembles in the form of the lip; the sepals and petals have a lemon yellow tinge and bright cinnamon brown blotches on the inner halves; the lip is white, with cinnamon brown base and marginal spots. Extra fine plant, 6 magnificent bulbs, 3 with leaves, 1 very strong lead 15 15 0
- 2292 „ **EXCELLENS.** Very fine yellow form. A wonderful natural hybrid, between *O. Pescatorei* and *O. Triumphans*. The flowers are rather broader than those of the latter; sepals and petals whitish suffused with a pretty bright canary yellow, the colour being deeper towards the edges, spotted with a few purple blotches; lip white, having numerous small purple blotches on the side, and a few larger ones in front; crest of lip deeper yellow. A handsome *Odontoglossum*. Grand plant, 4 very fine bulbs, 2 with leaves, 1 strong lead 36 15 0
- 2293 „ „ (Same Variety.) Fine plant, 2 bulbs, 1 nice new growth ... 26 5 0

ODONTOGLOSSUM EDWARDII.

A most superior lot of strong vigorous plants.

- 2793 **Vanda CHARLESWORTHII.** A natural hybrid between *V. Cœrulea* and *Bensonia*, exactly intermediate between the two parents. The flowers are $2\frac{1}{2}$ inches in diameter, sepals and petals being almost like in *V. Cœrulea*, but beautifully veined and suffused at the margin with light rosy purple, instead of blue; the labellum has almost the texture of *V. Bensonia*, while the shape is about intermediate between the two parents. Good plant, 1 strong stem, 7 healthy leaves ... 4 4 0
- 2794 „ **cœrulea.** MAGNIFICENT SPECIMEN (Unflowered) in perfect condition. 1 wonderful strong stem, stands 3 ft. 6 inches high and has 42 fine strong leaves ... 7 7 0

VANDA CŒRULEA. Unflowered. Semi-established.

The following plants are the finest and best shaped plants selected from a recent importation. They are potted, and growing vigorously.

LIST OF SUNDRIES.

THE following Articles are all of the finest quality, and we can highly recommend them; having used them ourselves for a number of years, we can testify to their being absolutely indispensable for the good cultivation of Orchids.

We have just received several trucks

Selected **ORCHID PEAT**, exceedingly fibrous, from the best Hampshire grounds. Owing to the scarcity of first-class peat, we are compelled to raise the price to **12/6 per Sack**

Finest **DUST PEAT** for Rhododendrons, **2/6 per Sack.**

SELECTED SPHAGNUM MOSS, Thick-headed and Green, the best Moss obtainable, **3/6 per Bushel; 10/- per Sack.**

THE WEST PATENT TEAK BASKETS, well recommended.

Complete with Copper Wire Improved Patent Suspenders.

4	5	6	7	8	9	10	11	12	13	14	Inches.
7/-	8/-	9/3	10/3	11/3	12/9	14/6	16/9	18/9	21/6	25/6	per Dozen.

THE WEST POT-SHAPED TEAK BASKETS, well recommended; very neat, well adapted for Cattleyas and Dendrobiums, **1½d. per inch**; as for instance, 4 inches deep by 4 inches across, **6/- per Dozen.**

ORCHID PANS, well Perforated, neat in appearance, and very durable.

2/6	2/6	3/-	3/-	3/-	3/-	3/-	3/6	3/6	per Cast.

CELLULOID LABELS, White Ivory Looking. These Labels are most attractive looking and very durable.

4 inch, **3/6 per 100**; 5 inch, **4/- per 100**; 6 inch, **5/- per 100.**

LATH ROLLER BLINDS (Our own manufacture).

They are neat in appearance, and whilst admitting the requisite amount of light, form the most effective shading possible. Further, they afford an excellent protection against frost during the severe weather. We have supplied several of the leading Orchid establishments with these blinds which have given every satisfaction. We have had them in use ourselves for several years and calculate that these blinds have saved us 50 per cent. in canvas shading formerly used.

As we have considerably improved our plant for this work we can now offer them at **1/9 per square yard Unpainted.**

We shall be pleased to give further particulars on application.
